## A B O U T

I'm a software engineer specialized in web development, motivated to meet customers and users expectations with high-quality and effective website layouts, It's good to say that I know my limits and I always try to exceed them, I accept the fact that I'm wrong when I'm wrong and build experience upon it too, and last but not least that I always try to develop my personality just like developing my skills.

## E X P E R I E N C E

### SOFTWARE ENGINEER

current

#### *blue holding - Alexandria, Egypt*

I'm working as a software engineer with Laravel and lately with Vuejs too, at the first I was responsible for the backend only and developing the frontend with the blades, then it expanded to Vuejs then I'm responsible for the hosting and deploying the projects too, at the first we were working with the Cpanel and now with AWS

### FREELANCER

2020 - 2022

#### *Fiverr, and Upwork - remote*

I was working as a software engineer with PHP Laravel at the backend and Vuejs for the front, In addition to some skills in graphic design, and this job was temporary while studying, and here are some links for my gigs if you wanted to hire me

<https://www.fiverr.com/users/is8design>

<https://www.upwork.com/freelancers/~01840f4f8d616ead38>

## E D U C A T I O N

### ADVANCED CLOUD DEVOPS COURSE

2022 - 2023

#### *FWD Egypt*

It was a long journey in AWS started Dec 2022 - Mar 2023, I learned a lot of things such as Cloud Fundamentals, how to Deploy Infrastructure as Code (IAC) with AWS cloud formation and how to Build CI/CD Pipelines, Monitoring & Logging and some of Foundations of Agile

### FRONTEND INTERNSHIP

2021

#### *Information Technology Institute*

It was such a good time started May 2021 - Jul 2021, I learned a lot of front-end skills such as: the basics of course HTML, CSS, Javascript, ES6, TypeScript and jQuery too, and some libraries like Bootstrap

## BACHELOR'S DEGREE

2017 - 2020

*Kafr Elshaikh University - Kafr Elshaikh, Egypt*

I was in the **computers and information** faculty, information technology department for academic learning, and computer science as self-learning

## SKILLS

- Flawless knowledge of front-end technologies, such as **VueJs**, and the basics like **JavaScript(ES6)**, **jQuery**, **Ajax**, **HTML5**, **CSS3**, **Tailwindcss** and **Bootstrap**.
- Comfortable with **PHP** programming language and its best practices, and very good at Object-Oriented Programming (**OOP**), I used to use **Laravel** framework in development.
- Restful with creating Databases, and pretty good with **Relational Database**, lately I was using **MySQL** and **MSSQL** in development.
- **RESTful APIs** and ideal knowledge of **GraphQL**.
- And newly added skills as **DevOps** with **AWS** cloud such as Cloud Fundamentals like **Static hosting** with **S3** and promoting it with the **Cloud front**, how the **VPC** works and how to create a private network **manually** and **automated**, how to Deploy Infrastructure as Code (**IAC**) with **AWS Cloud formation** and how to Build **CI/CD Pipelines** using **CircleCI** and **Github**, Monitoring & Logging with **Prometheus**
- Solid knowledge of **Git essentials** and version control such as **GitHub** and **GitLab**
- I have been practising lately on **bash** and **bash scripting** using **Linux**
- Some foundations of **Agile**
- I know **SOLID PRINCIPLES**, and **Design Patterns**, had a very good grade in this field BTW.
- I'm fine with **UI/UX** and **Graphic Design** too(one of my hobbies), I usually use **Adobe Illustrator**, **Adobe Photoshop**, and **Adobe XD** to reflect my ideas to the real world.
- I have some friendly soft skills, like **Communication**, **Teamwork**, **Leadership**, and **Critical Thinking**.

## PROJECTS

### PFIZER-GAME

2023

It was a little game of multiple questions for multiple teams and it was a challenge, because it required in 4 days
